Sommario/riassunto

The creation of the Euro Area and the eastward enlargement of the EU are two of the greatest policy projects in the history of European integration, presenting major challenges. This is the first in-depth and systematic analysis of these challenges, and their effects on the domestic economic policies of accession states. - ;This book seeks to offer the first in-depth and systematic analysis of the challenges of the Euro Area and the eastward enlargement of the European Union. It focuses in particular on how the prolonged process of accession to the Euro Area is affecting domestic economic poli
