

1. Record Nr.	UNINA9910784749503321
Autore	Lepoittevin Jean-Pierre
Titolo	Dictionary of Contact Allergens [[electronic resource]] / by Jean-Pierre Lepoittevin, Christophe J. Coz
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2007
ISBN	9786611118365 3-540-74165-8
Edizione	[1st ed. 2007.]
Descrizione fisica	1 online resource (285 p.)
Disciplina	616.973 616.973003
Soggetti	Dermatology Allergy Internal medicine Family medicine Occupational medicine Allergology Internal Medicine General Practice / Family Medicine Occupational Medicine/Industrial Medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Based on: Contact dermatitis / P.J. Frosch, T. Menne, J.-P. Lepoittevin, editors. 4th ed. 2006.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Front Matter; Dictionary of Contact Allergens: Chemical Structures, Sources and References; Patch Testing with the Patients'Own Products
Sommario/riassunto	The Dictionary of Contact Allergens is a helpful guide for familiarizing the reader with the structures of chemicals implicated in contact dermatitis. Each molecule is described together with its principal name for classification. The most important synonyms, the Chemical Abstract Service (CAS) registry number, which characterizes the substance and its chemical structure, and the relevant literature references are also listed. Further, the reader will find a unique chapter on patch testing with the patient's own products. This guide is a "must-have" for any physician involved with the diagnosis and treatment of patients with

contact dermatitis and allergic skin disease.
