Sommario/riassunto	Guy Halsall relates warfare to many aspects of medieval life, economy, society and politics. This book recovers its distinctiveness, looking at warfare in a rounded context in the British Isles and Western Europe between the end of the Roman Empire and the break-up of the Carolingian Empire. Examining the raising and organization of early medieval armies and looks at the conduct of campaigns, the survey also includes a study of the equipment of warriors and the horrific experience of battle as well as an analysis of medieval fortifications and siege warfare.
