Verweij -- List of Contributors / Th.A. Van Baarda and D.E.M. Verweij -- Index / Th.A. Van Baarda and D.E.M. Verweij.

Sommario/riassunto

This collection is a unique joint venture of teachers in, and practitioners of military ethics. Representatives of each branch of the Armed Forces, id est the Navy, the Army, the Air Force and the Military Police, discuss their branch-specific experiences with moral questions and dilemma's. The moral questions and dilemma's which arise in their work are also discussed by certain professional groups within the Armed Forces, such as the Military Medical Service and the Military Psychological Service. Detailed attention is given to how junior commanders can enhance morally responsible behaviour within their unit. A substantial part of the book focuses on teaching military ethics. It includes the Socratic dialogue, decision-making skills, and a chapter containing fictitious moral dilemmas that can be used as exercises. The book is aimed at those responsible for training at military training centres as well as at cadets, midshipmen and young officers. It will also be an important tool for commanders preparing for a mission. And it will be of use for all those concerned with the subject of military ethics at policy and management level, both in the armed forces and outside it. Military Ethics: The Dutch Approach – A Practical Guide is an adapted translation of the main chapters of the Dutch-language volume *Praktijkboek Militaire Ethiek (Practitioner's Guide Military Ethics)*.
