Note generali	Includes index.

Nota di contenuto

Defining market players within the healthcare continuum -- Protected health information -- Health information pipelines -- Accounts receivable pipelines -- Operational flow activity -- Product, service, and consumer market activity -- Data management -- Normal infrastructure -- Normal infrastructure and anomaly tracking systems -- Components of the data mapping process -- Components of the data mining process -- Components of the data mapping and data mining process -- Data analysis models -- Clinical content data analysis -- Profilers -- Market implications.

Sommario/riassunto

According to private and public estimates, approximately 24 million is lost per hour to healthcare waste, fraud, and abuse. A must-have reference for auditors, fraud investigators, and healthcare managers, *Healthcare Fraud: Auditing and Detection Guide* provides tips and techniques to help you spot-and prevent-the ""red flags"" of fraudulent activity within your organization. Eminently readable, it is your "go-to" resource, equipping you with the necessary skills to look for and deal with potential fraudulent situations.
