1. Record Nr. UNINA9910784803403321

Autore	Kay Lily E
Titolo	The molecular vision of life [[electronic resource]] : Caltech, the Rockefeller Foundation, and the rise of the new biology / / Lily E. Kay
Pubbl/distr/stampa	New York, : Oxford University Press, 1993
ISBN	0-19-770165-5 1-280-53332-3 9786610533329 0-19-536331-0
Descrizione fisica	1 online resource (315 p.)
Collana	Monographs on the history and philosophy of biology
Disciplina	574.8/8/09
Soggetti	Molecular biology - History
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents; Introduction; 1. ""Social Control"": Rockefeller Foundation's Agenda in the Human Sciences, 1913-1933; 2. Technological Frontier: Southern California and the Emergence of Life Science at Caltech; 3. Visions and Realities: The Biology Division in the Morgan Era; Interlude I. Protein Paradigm; 4. From Flies to Molecules: Physiological Genetics During Morgan Era; 5. Convergence of Goals: From Physical Chemistry to Bio-Organic Chemistry, 1930-1940; 6. Spoils of War: Immunochemistry and Serological Genetics, 1940-1945; 7. Microorganisms and Macromanagement: Beadle's Return to Caltech Interlude II. At a Crossroads: Shaping of Postwar Science8. Molecular Empire (1946-1953); Epilogue Paradigm Lost? From Nucleoproteins to DNA; Conclusion; Key to Archival Sources; Index
Sommario/riassunto	1. ""Social Control:"" the Rockefeller Foundation's Agenda in the Human Sciences, 1913-1933. 2. The Technological Frontier: Southern California and the Emergence of Life Science at Caltech. 3. Visions and Realities: The Biology Division in the Morgan Era. Interlude 1 -- The Protein Paradigm. 4. From Flies to Molecules: Physiological Genetics in the Morgan Era. 5. A Convergence of Goals: From Physical Chemistry to Bio-Organic Chemistry. 6. The Spoils of War: Immunochemistry and Serological Genetics, 1940-1945. 7. Microorganisms and
