

1. Record Nr.	UNINA9910784816203321
Autore	Cai C. W
Titolo	Exact analysis of bi-periodic structures [[electronic resource] /] / C.W. Cai, J.K. Liu, H.C. Chan
Pubbl/distr/stampa	New Jersey, : World Scientific, c2002
ISBN	981-277-762-8
Descrizione fisica	1 online resource (ix, 269 p. ) : ill
Altri autori (Persone)	LiuJ. K ChanH. C (Hon Chuen)
Disciplina	624.1/71
Soggetti	Structural analysis (Engineering) Mechanics, Analytic Transformation groups
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references (p. 263-264) and index.
Nota di contenuto	U-transformation and uncoupling of governing equations for systems with cyclic bi-periodicity; bi-periodic mass-spring systems; bi-periodic structures; structures with bi-periodicity in two directions; nearly periodic systems with non-linear disorders.
Sommario/riassunto	By using the U-transformation method, it is possible to uncouple linear simultaneous equations with cyclic periodicity. This text discusses how to apply U-transformation twice to uncouple the two sets of unknown variables in a doubly periodic structure to achieve an analytical exact solution.
