

1. Record Nr.	UNINA9910784818903321
Titolo	Cirrus [[electronic resource] /] / edited by David K. Lynch ... [et al.]
Pubbl/distr/stampa	Cambridge ; ; New York, : Oxford University Press, 2002
ISBN	0-19-756143-8 1-280-83315-7 9786610833153 0-19-535139-8
Descrizione fisica	1 online resource (499 p.)
Collana	Oxford scholarship online
Altri autori (Persone)	LynchDavid K. <1946->
Disciplina	551.57/6
Soggetti	Cirrus clouds Clouds
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Previously issued in print: 2002. Includes index.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents; First Authors; 1. Cirrus: History and Definition; 2. Cirrus: A Modern Perspective; 3. Ice Crystals in Cirrus; 4. Mid-latitude and Tropical Cirrus: Microphysical Properties; 5. Laboratory Studies of Cirrus Cloud Processes; 6. Cirrus and Weather: A Satellite Perspective; 7. Satellite Remote Sensing of Cirrus; 8. Ground-based Remote Sensing of Cirrus Clouds; 9. Molecular-Backscatter Lidar Profiling of the Volume-Scattering Coefficient in Cirrus; 10. Structural and Optical Properties of Cirrus from LIRAD-type Observations; 11. Contrail Cirrus; 12. Subvisual Cirrus 13. Radiative Transfer in Cirrus Clouds: Light Scattering and Spectral Information 14. On Cirrus Modeling for General Circulation and Climate Models; 15. GCM Simulations of Cirrus for Climate Studies; 16. Ice Clouds in Numerical Weather Prediction Models: Progress, Problems, and Prospects; 17. Dynamic Processes in Cirrus Clouds: A Review of Observational Results; 18. Dynamic Processes in Cirrus Clouds: Concepts and Models; 19. Microphysical Processes in Cirrus and Their Impact on Radiation: A Mesoscale Modeling Perspective; 20. Cirrus, Climate, and Global Change; 21. Cirrus: The Future Appendix: Chapter 2 Plates - Cirrus Case Studies Index

Sommario/riassunto

This text, devoted entirely to cirrus clouds, captures the state of knowledge of cirrus clouds and serves as a practical handbook as well.
