Sommario/riassunto	Understanding Looked After Children is an accessible guide to understanding the mental health needs of children in foster care and the role of foster carers and support networks in helping these children. The authors provide foster carers with an insight into the psychological issues experienced by children in the care system, and the impact of these issues on the foster family. Chapters cover cultural, social and legal structures associated with foster care and both the

relevant child psychology theory and examples drawn from real-life situations. The authors give advice on how to address
