| Note generali | Description based upon print version of record. |
| Nota di bibliografia | Includes bibliographical references and index. |
| Nota di contenuto | Contents; 1. Introduction; 2. Reconstructing the Past, Imagining the Future: Defining the Domain of Relevance in Lawyer-Client Interaction; 3. Negotiating ""Realism"" and Responsibility in Lawyer-Client Interactions; 4. Law Talk in the Divorce Lawyer's Office; 5. From Adversariness to Resolution: Lawyers, Clients, and the World of Deals; 6. Conclusion; Notes; References; Index |
| Sommario/riassunto | Based on over 100 lawyer-client conferences at which the authors were observers, this book charts the complicated and shifting relationships between the two as they work out the strategy and tactics of divorce. It also examines the nature of the marriage and why marriages fail, the nature of the legal process and the best way to resolve divorce. |

| Sommario/riassunto | This proceedings book contains 37 papers selected from the submissions to the 6th International Conference on Computer Science, Applied Mathematics and Applications (ICCSAMA 2019), which was held on 19–20 December, 2019, in Hanoi, Vietnam. The book covers theoretical and algorithmic as well as practical issues connected with several domains of Applied Mathematics and Computer Science, especially Optimization and Data Science. The content is divided into four major sections: Nonconvex Optimization, DC Programming & DCA, and Applications; Data Mining and Data Processing; Machine Learning Methods and Applications; and Knowledge Information and Engineering Systems. Researchers and practitioners in related areas will find a wealth of inspiring ideas and useful tools & techniques for their own work. . |
