Part 4: Finance and regionalism9 Neo-liberal financial integration and financial crisis in emerging economies; 10 Bank-based and market-based financial systems; 11 East Asia and the development of regionalism; Index
Sommario/riassunto	Because their economies were regulated, their financial systems 'repressed' and their states interventionist, for many years the countries

of East Asia challenged the Washington consensus, offering an alternative development paradigm. However, in the 1990's, Asian capitalism was disrupted following Japan's stagnation and the financial crisis of 1997-98. Treading the unexplored theoretical terrain created by the simultaneous decline of the Washington Consensus and Asian developmentalism, this revealing book analyzes the comparative political economy of East Asia and Latin America
