Nota di contenuto	Management: the emergence of a dominating paradigm -- The nature of management -- Radical organization theory and research -- Management and the labour process -- Management and class analysis -- The capitalist state and management -- Popular planning in modern London: a context of disparities -- Processes of domination in the management of a job creation scheme -- Community initiative or state enterprise? -- Setting up Stonebridge -- Who managed the Charlton Training Centre? -- Attempting democratic organization: tensions and contradictions -- Beyond the dominance of management.
Sommario/riassunto	Offers a controversial reanalysis of the rise and dominance of managerialist approaches to development by using two British inner-city community development projects as case studies to shows how 'managed development' runs counter to participatory values and aspirations of communities receiving development aid.
