18 European security identity since the end of the Cold War
19 A realistic reset with Russia: Practical expectations for US-Russian relations; 20 The Obama administration and transatlantic security: Problems and prospects; 21 Is the present future of NATO already history?; Index

Sommario/riassunto

This new Handbook provides readers with the tools to understand the evolution of transatlantic security from the Cold War era to the early 21st century. After World War II, the US retained a strong presence as the dominant member of NATO throughout the Cold War. Former enemies, such as Germany, became close allies, while even countries that often criticized the United States made no serious attempt to break with Washington. This pattern of security co-operation continued after the end of the Cold War, with NATO expansion eastwards extending US influence. Despite the Iraq war
