Follette.

Sommario/riassunto

The Handbook of Stress, Trauma, and the Family is broken down into three sections, compiling research, theory and practice. The first section focuses on how traumatic stress affects intimate others, what familial characteristics affect individual susceptibility to trauma, as well as evaluation of the effectiveness of various interventions. The section on theory explores concepts of stress and intrapsychic processes underlying the intergenerational transmission of trauma, addressing how families can buffer or enhance anxiety. The final section, entitled practice, covers assessment (p
