

1. Record Nr.	UNINA9910785022503321
Titolo	Radio frequency identification system security [[electronic resource]] : RFIDsec'10 Asia workshop proceedings // edited by Yingjiu Li and Jianying Zhou
Pubbl/distr/stampa	Amsterdam ; ; Washington, D.C., : IOS Press, c2010
ISBN	6612692723 1-282-69272-0 9786612692727 1-60750-485-5
Descrizione fisica	1 online resource (172 p.)
Collana	Cryptology and information security series, , 1871-6431 ; ; v. 4
Altri autori (Persone)	LiYingjiu ZhouJianying
Disciplina	005.8
Soggetti	Radio frequency identification systems - Security measures
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	Title page; Preface; Programme Committees; Contents; Securing Low-Cost RFID Systems: An Unconditionally Secure Approach; The Case for Dynamic RFID Tag Authentication; Practical RFID Ownership Transfer Scheme; An Efficient Ultralightweight Authentication Protocol for RFID Systems; Faster CRT-RSA Decryption Towards RFID Applications; Fingerprinting Radio Frequency Identification Tags Using Timing Characteristics; Security Flaws in a Recent Ultralightweight RFID Protocol; Semantic Access Control Model for RFID-Enabled Supply Chains; Security in the Internet of Things Securing RFID-Supported Supply Chains On Mitigating Covert Channels in RFID-Enabled Supply Chains; Anonymous RFID Yoking Protocol Using Error Correction Codes; Subject Index; Author Index
Sommario/riassunto	Contains papers presented at the 2010 Workshop on Radio Frequency Identification Security (RFIDsec'10 Asia), held in Singapore on February 22-23, 2010. This book covers topics, including unconditionally secure RFID systems, dynamic RFID tag authentication, RFID ownership transfer, fingerprinting RFID tags, and secure RFID-supported supply chains.
