Sommario/riassunto	In this collection of essays of incomparable scholarship, Stephen Badsey explores in individual detail how the British Army fought in the First World War, how politics and strategy affected its battles and the decisions of senior commanders such as Douglas Haig, and how these issues were intimately intertwined with the mass media portrayal of the Army to itself and to the British people. Informative, provocative, and often entertaining, based on more than a quarter-century of research, these essays on the British Army in the First World War range through topics from a trench raid to modern tel
