Sommario/riassunto	Missionaries go into all the world and make disciples of all nations, while monks live cloistered in a monastery and focus their lives on prayer and studying Scripture -- correct? Not exactly. When we study the history of Christian mission, especially from around 500 to 1500 CE, the key missionaries that we constantly encounter are monks. In fact, if we don't have monks in this period then we have very little in the way of Christian mission. Our aim in this book is to examine the phenomenon of missionary monks -- those who pursued both a monastic and missionary calling. We will meet the monks and monastic orders, narrate their journeys in mission, and evaluate their approaches to and thoughts about mission.

Sommario/riassunto	This volume presents new perspectives on the ancient texts discovered

at Qumran. The essays offer fresh insights into particular texts and genres, by applying methods and constructs drawn from other disciplines to the study of the Dead Sea Scrolls, and by exploring new as well as long-standing issues raised by these works. The topics and approaches engaged include group identity, memory, ritual theory, sectarian sociology, philosophy of education, liturgical anthropology, Jewish law, history of religion, and mysticism. The articles in this volume were originally presented at the Tenth Annual International Orion Symposium sponsored in 2005 by the Orion Center for the Study of the Dead Sea Scrolls and Associated Literature at the Hebrew University of Jerusalem.
