Sommario/riassunto	This book examines the complex relationship between class and gender dynamics among tea ceremony (chad?) practitioners in Japan. Focusing on practitioners in a provincial city, Akita, the book surveys the rigid, hierarchical chad? system at grass roots level. Making critical use of Bourdieu's idea of cultural capital, it explores the various meanings of chad? for Akita women and argues that chad? has a cultural, economic, social and symbolic value and is used as a tool to improve gender and class equality. Chad? practitioners focus on tea procedu

Sommario/riassunto	The Northern California coast--from Monterey County to the Oregon border--is home to some of the richest avian habitats on the North American continent. Field Guide to Birds of the Northern California Coast provides a comprehensive ecological overview of this extensive and diverse region. It features detailed discussions of the area's most common water birds, raptors, and land birds and highlights the most productive birding sites in each Northern California coastal county. Accessibly written and user-friendly, this guide contains nearly 250 species accounts that focus on seasonal rhythms and behavioral characteristics of each species. More than 130 color photographs and hand-drawn sketches depict the birds in context, and maps and occurrence charts indicate when readers might spot each species.
