M. Richards and 'the Functional Tradition' Chapter 9: A Modernist Vernacular?: The Hidden Diversity of Post-War Council Housing; Chapter 10: From Longhouse to Live/Work Unit: Parallel Histories and Absent Narratives; Index
Sommario/riassunto	This book extends the concept of British vernacular architecture beyond its traditional base of pre-modern domestic and industrial

architecture to embrace other buildings such as places of worship, villas, hospitals, suburban semis and post-war mass housing. Engaging with wider issues of social and cultural history, this book is of use to anyone with an interest in architectural history. Presented in an essentially chronological sequence, from the medieval to the post-war, diverse fresh viewpoints in the chapters of this book reinforce understanding of how building design emerges not
