

1. Record Nr.	UNINA9910785176703321
Autore	Holmqvist Gunnar N
Titolo	Statins [[electronic resource]] : Indications and Uses, Safety and Modes of Action
Pubbl/distr/stampa	New York, : Nova Science Publishers, Inc., 2008
ISBN	1-60876-345-5
Descrizione fisica	1 online resource (219 p.)
Disciplina	615/.718
Soggetti	<ul style="list-style-type: none"> Anticholesteremic agents Statins (Cardiovascular agents) Lipoproteins, LDL Anticholesteremic Agents Vascular Diseases Cholesterol Enzyme Inhibitors Heart Diseases Cholesterol, LDL Hydroxymethylglutaryl-CoA Reductase Inhibitors Myocardial Ischemia Sterols Hypolipidemic Agents Lipoproteins Cardiovascular Diseases Molecular Mechanisms of Pharmacological Action Antimetabolites Proteins Lipid Regulating Agents Lipids Diseases Pharmacologic Actions Membrane Lipids Therapeutic Uses Chemical Actions and Uses Amino Acids, Peptides, and Proteins Health & Biological Sciences Pharmacy, Therapeutics, & Pharmacology

Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	Statin therapy for coronary artery disease beyond lipid lowering effect / Teruo Inoue, Koichi Node -- Side effects of statins in monotherapy / Helmut Sinzinger, Bernhard A. Peskar -- Preliminary findings about the trends of the renal hemodynamics and the proxies of cardiovascular risk during a short course of atorvastatin therapy in essential hypertensives / Luigi Vernaglione -- Beneficial effects of addition of fenofibrate to statin therapy in patients with acute coronary syndrome after percutaneous coronary interventions / Hetal D. Shah ... [et al.] -- Non-lipid lowering effects of statins / A. Schmidt -- Statins in the therapy of acute coronary syndrome / Petr Ostadal -- Beneficial effects of addition of fenofibrate to statin therapy in patients with acute coronary syndrome after percutaneous coronary interventions / Hetal D. Shah ... [et al.] -- Bad HDL-C responders to statins / Dirk Devroey -- Beneficial effects of statins in systemic lupus erythematosus : molecular mechanism involved / Antonio G. Tristano.
