

1. Record Nr.	UNINA9910785184203321
Titolo	The impact of early life trauma on health and disease : the hidden epidemic // edited by Ruth A. Lanius, Eric Vermetten, Clare Pain [[electronic resource]]
Pubbl/distr/stampa	Cambridge : , : Cambridge University Press, , 2010
ISBN	1-139-81424-9 1-107-21104-2 1-282-77043-8 9786612770432 0-511-77590-3 0-511-77666-7 0-511-77408-7 0-511-77301-3 0-511-77704-3 0-511-77514-8
Descrizione fisica	1 online resource (xvii, 315 pages) : digital, PDF file(s)
Disciplina	618.92/8521
Soggetti	Post-traumatic stress disorder in children - Complications Psychic trauma in children - Complications Adult child abuse victims - Mental health Adult child abuse victims - Health and hygiene
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from publisher's bibliographic system (viewed on 05 Oct 2015).
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	; pt. 1. Childhood trauma : epidemiology and historical themes -- The history of early life trauma and abuse from the 1850s to the current time : how the past influences the present / Marin J. Dorahy, Onno van der Hart and Warwick Middleton -- The epidemiology of early life trauma / Karestan C. Koenen [and others] -- Historical themes in the study of recovered and false memories of trauma / Constance J. Dalenberg and Kelsey L. Paulson -- Early life trauma, later outcome : results from longitudinal studies and clinical observations / Nathan Szajnberg, Amit Goldenberg and Udi Harari -- ; pt. 2. The effects of life

trauma : mental and physical health -- Attachment dysregulation as hidden trauma in infancy : early stress, maternal buffering and psychiatric morbidity in young adulthood / Jean-Francois Bureau, Jodi Martin and Karlen Lyons-Ruth -- Towards a developmental trauma disorder diagnosis for childhood interpersonal trauma / Bessel A van der Kolk and Wendy d' Andrea -- Complex adult sequelae of early life exposure to psychological trauma / Julian D. Ford -- The relationship of adverse childhood experiences to adult medical disease, psychiatric disorders and sexual behavior : implications for healthcare / Vincent J. Felitti and Robert F. Anda.

; pt. 5. Assessment on the impact of early life trauma : clinical science and societal effects -- Assessing the effects of early and later childhood trauma in adults / John Briere and Monica Hodges -- Memory and trauma : examining disruptions in implicit, explicit and autobiographical memory / Melody D. Combs and Anne P. DePrince -- Scientific progress and methodological issues in the study of recovered and false memories of trauma / Constance J. Dalenberg and Oxana G. Paley -- The psychosocial consequences of organized violence on children / Felicia Heindenreich, Monica Ruiz-Casares and Cecile Rousseau -- ; pt. 6. Strategies to reduce impact : clinical treatment -- The role of mentalizing in treating attachment trauma / Jon G. Allen, Peter Fonagy and Anthony Bateman -- Pragmatic approaches to stage-oriented treatment for early life trauma-related complex post-traumatic stress and dissociative disorders / Richard J. Loewenstein and Victor Welzant -- Cognitive-behavioral treatments for post-traumatic stress disorder / Kathleen M. Chard and Amy F. Buckley -- Emotions and emotion regulation in the process of trauma recovery : implications for the treatment of post-traumatic stress disorder / Anthony Charuvastra and Marylene Cloitre -- Psychodynamic psychotherapy : adaptations for the treatment of patients with chronic complex post-traumatic stress disorder / Clare Pain [and others].

; pt. 3. The impact of early life trauma : psychobiological sequelae in children -- Juvenile stress as an animal model of childhood trauma / Gal Richter-Levin and Shlomit Jaconbson-Pick -- Lateral asymmetries in infants' regulatory and communicative gestures / Rosario Montiroso, Renato Borgatti and Ed Tronick -- Neurobiology of childhood trauma and adversity / Martin H. Teicher [and others] -- Neurobiology of child neglect / Michael D. De Bellis -- Early life stress as a risk factor for disease in adulthood / Philip A. Fisher and Megan Gunnar -- ; pt. 4. The impact of childhood trauma : psychobiological sequelae in adults -- Early life stress and psychiatric risk/resilience : the importance of a developmental neurobiological model in understanding gene by environment interactions / Kelly Skelton, Tamara Weiss and Bekh Bradley -- The neuroendocrine effects of early life trauma / Jamie L. LaPrairie, Christine M. Heim and Charles B. Nemeroff -- Long-lasting effects of childhood abuse on neurobiology / J. Douglas Bremner, Eric Vermetten and Ruth A. Lanius -- Biological framework for traumatic dissociation related to early life trauma / Christian Schmahl [and others] -- Neurobiological factors underlying psychosocial moderators of childhood stress and trauma / Fatih Ozbay [and others].

Sommario/riassunto

There is now ample evidence from the preclinical and clinical fields that early life trauma has both dramatic and long-lasting effects on neurobiological systems and functions that are involved in different forms of psychopathology as well as on health in general. To date, a comprehensive review of the recent research on the effects of early and later life trauma is lacking. This book fills an obvious gap in academic and clinical literature by providing reviews which summarize and

synthesize these findings. Topics considered and discussed include the possible biological and neuropsychological effects of trauma at different epochs and their effect on health. This book will be essential reading for psychiatrists, clinical psychologists, mental health professionals, social workers, pediatricians and specialists in child development.
