Sommario/riassunto	A practical overview of clinical issues related to end-of-life care, including grief and bereavement The needs of individuals with life-limiting or terminal illness and those caring for them are well documented. However, meeting these needs can be challenging, particularly in the absence of a well-established evidence base about how best to help. In this informative guide, editors Sara Qualls and Julia Kasl-Godley have brought together a notable team of international contributors to produce a clear structure offering mental health professionals a framework for developing the competenc
