Expression and Citizenry Belonging; 10 Migrants on Campus: Becoming a Local Foreign Academic; Epilogue: The Cosmopolitan Justice of a Direction Home; Index

Sommario/riassunto

Local Lives contests dominant trends in migration theory, demonstrating that many migrant identities have not become entirely diasporic or cosmopolitan, but remain equally focused on emplaced belonging and the anxieties of being uprooted. By addressing the question of how migrants legally and symbolically lay claim to owning and belonging to place, it refocuses our attention on the micro-politics and everyday rituals of place-making, that are central to the construction of migrant identities.
