Sommario/riassunto	This book contains an eighteen hour seminar - given over a three day period - presented by Michael Eigen in Seoul, Korea, in 2007. The seminar traces transformations of madness and faith in psychoanalysis - particularly Freud, Klein, Bion and Winnicott - emphasizing basic rhythms of experience steeped in clinical details, social issues and personal concerns, and takes up problems of madness and faith besetting the world today. It is filled with clinical portrayals and discussions of personal and social issues. Eigen describes ways we live through challenging experiences in therapy relevant for how life is lived. Discussions go back and forth between clinical details and cultural dilemmas, touching the taste of life, how one feels to oneself. This work is at once personal, learned, and down-to-earth. One gets the feeling that a lifetime of dedicated work is being condensed and

transmitted, mind to mind, person to person, soul to soul. The reader will feel he or she is a member of an ongoing seminar alive today, this moment, carrying the work further.
