

1. Record Nr.	UNINA9910785225403321
Autore	Sandler P.C.
Titolo	A clinical application of bion's concepts : dreaming, transformation, containment and change / / by P.C. Sandler
Pubbl/distr/stampa	Boca Raton, FL : , : Routledge, an imprint of Taylor and Francis, , [2018] ©2009
ISBN	0-429-91025-8 0-429-89602-6 0-429-47125-4 1-282-90074-9 9786612900747 1-84940-696-0
Edizione	[First edition.]
Descrizione fisica	1 online resource (496 p.)
Disciplina	616.89/17 616.8917
Soggetti	Psychoanalysis Psychoanalytic interpretation Dream interpretation
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 357-366) and index.
Nota di contenuto	v. 1. Dreaming, transformation, containment and change --.
Sommario/riassunto	This work depicts clinical applications stemming from Dr Wilfred Ruprecht Bion's contributions to psychoanalysis. It may be used as a practical companion to The Language of Bion: A Dictionary of Concepts also by P.C. Sandler. Both constitute a natural arrangement of Bion's concepts; "natural" being the help the selected concepts may provide to any analyst who understands and uses the observations underlying the concepts effectively in his or her everyday clinical work. It also contains expansions of Bion's concepts arising out of clinical observations, made possible by those very contributions - a common-sense invariant in science. Universes of hitherto unknown - but existing - facts are observed, and through observation and application expanding universes are unlocked to consciousness (and therefore awareness)

Some chapters will help the reader understand Bion's original concepts and apply them in clinical practice. Other chapters are more explicit and go beyond what was adumbrated or indicated by Bion, in the light of phenomena observed against the background of Bion's contributions. These chapters also indicate the intertwined nature of his contributions.
