Sommario/riassunto	Education policy and practice has historically been developed within the national/regional context. However, globalization has prompted educationalists to review their practice in the light of international influences. World issues such as global warming, conflict and the depletion of earth resources have also contributed to an increased awareness of the role that education can play in resolving these problems. The contributors focus on how education can bring about social change while connecting with theory at the level of cultural impact and policy implications. They investigate the potentia
