perverse actions - Rainer Krause; 8. Conclusion: future clinical, conceptual, empirical, and interdisciplinary research on sexuality in psychoanalysis - Marianne Leuzinger-Bohleber; REFERENCES AND BIBLIOGRAPHY; INDEX

Sommario/riassunto

'While Freud opened the door on the formative and motivating power of sexuality, contemporary psychoanalysts, with some notable exceptions, have consigned sexuality to the psychoanalytic closet. This book not only re-opens the door on the broad subject of psychosexuality, but also provides fresh insights into heterosexuality, bisexuality, homosexuality, gender identity disorder, transvestism and transsexualism. This publication brings together some of the leading psychoanalytic authorities from around the globe to consider in depth the complex interweaving of identity, gender and sexuality
