Sommario/riassunto	A comprehensive introduction to middle school teaching, this textbook focuses explicitly on instructional strategies that encourage adolescents to become active participants in their own learning within a world of accountability and standardized testing. The author, an experienced middle school teacher and teacher educator, takes a constructivist approach to teaching that considers the whole child, including the emotional, psychological, social, and cultural variables

uniquely associated with adolescence. The text examines the full range of middle school topics, from the development and div
