| Sommario/riassunto | In the twentieth century, illiteracy and its elimination were political issues important enough to figure in the fall of governments (as in Brazil in 1964), the building of nations (in newly independent African countries in the 1970's), and the construction of a revolutionary order (Nicaragua in 1980). This political biography of Paulo Freire (1921-97), who played a crucial role in shaping international literacy education, also presents a thoughtful examination of the volatile politics of literacy during the Cold War. A native of Brazil's impoverished northeast, Freire developed adult |
