

1. Record Nr.	UNINA9910785410403321
Titolo	Aslib proceedings [[electronic resource]] . Volume 62, Number 4/5 Content architecture : exploiting and managing diverse resources ; proceedings of the 1st National Conference of the United Kingdom Chapter of the International Society for Knowledge Organization (ISKO) // guest editor, Vanda Broughton
Pubbl/distr/stampa	[Bingley, UK], : Emerald, 2010
ISBN	1-282-98713-5 9786612987137 0-85724-504-X
Descrizione fisica	1 online resource (189 p.)
Collana	Aslib proceedings ; ; vol. 62, no. 4/5
Altri autori (Persone)	BroughtonVanda
Disciplina	020
Soggetti	Knowledge management Semantic computing
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Cover; CONTENTS; EDITORIAL ADVISORY BOARD; The fall and rise of knowledge organization: new dimensions of subject description and retrieval; Semantic targeting: past, present, and future; Developing information architecture through records management classification techniques; Lessons learned in content architecture harmonization and metadata models; "Content architecture"; Integration of distributed terminology resources to facilitate subject cross-browsing for library portal systems; Ordinary image retrieval in a multilingual context Large-scale grid computing for content-based image retrievalExcavating grey literature; Semantic metadata annotation: tagging Medline abstracts for enhanced information access; Organising music for movies; Adventures in tagging: local history in East London; Biodiversity information retrieval across networked data sets
Sommario/riassunto	The papers in this e-book constitute a selection of those delivered at the first national conference of the United Kingdom chapter of the International Society for Knowledge Organization (ISKO). The conference, "Content architecture: exploiting and managing diverse

resources", was held at University College London in June 2009. ISKO UK provides a natural home, not only for practitioners and academics in conventional LIS, but also taxonomists, intranet managers, indexers and content managers; it has attracted an even wider audience to its events, with archivists, records managers, systems manag
