Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. Setting the scene -- pt. 2. Key perspectives -- pt. 3. Supervisors : old and new -- pt. 4. Development and training.
Sommario/riassunto	The PhD provides a complex and challenging research experience, and at its heart is the key educational role of supervisor. Understanding Supervision and the PhD explores doctoral research as a real life experience, as understood from the perspective of key participants, including those who have successfully completed their PhD, those who are currently working towards their PhD, those who are new to supervision, and experienced supervisors. Understanding Supervision and the PhD is written in the belief that supervisors' professional development is enriched by recognising the variety of perspec
