

1. Record Nr.	UNINA9910785511103321
Titolo	Research methods to assess dietary intake and program participation in child day care [[electronic resource]] : application to the Child and Adult Care Food Program : workshop summary / / Leslie Pray, Ann Yaktine, and Sheila Moats, rapporteurs ; Food and Nutrition Board, Institute of Medicine of the National Academies
Pubbl/distr/stampa	Washington, D.C., : National Academies Press, 2012
ISBN	0-309-25734-4 1-283-63609-3 0-309-25732-8
Descrizione fisica	1 online resource (107 p.)
Altri autori (Persone)	PrayLeslie A YaktineAnn L MoatsSheila A
Disciplina	363.8620973
Soggetti	Day care centers - Administration - United States Children - Nutrition - United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	""Front Matter""; ""Reviewers""; ""Contents""; ""1 Introduction""; ""2 Alignment of Young Children's Dietary Intake with Current Dietary Guidance""; ""3 Barriers and Facilitators to Providing Meals and Snacks that Align with the Current Dietary Guidance""; ""4 Evaluating Program Access and Participation Trends""; ""5 Moving Forward""; ""Appendix A: Workshop Agenda""; ""Appendix B: Biographical Sketches of Moderators and Speakers""; ""Appendix C: Workshop Attendees""; ""Appendix D: Abbreviations and Acronyms""
Sommario/riassunto	"More than 16 million children in the United States live in food-insecure households where they are unable to obtain enough food to meet their needs. At the same time, a growing number of children are overweight or obese. Because of these challenges, improving child nutrition has emerged as one of the nation's most urgent public health needs. The Child and Adult Care Food Program (CACFP), a U.S. Department of Agriculture (USDA) food program, served about 3.3 million children in

2011, as well as more than 124,000 adults who require daily supervision or assistance. Since many children rely on CACFP for the majority of their daily food, the quality of foods provided has the potential to greatly improve the health of the children's diets. The USDA asked the IOM to review and recommend improvements, as necessary, to the CACFP meal requirements in order to keep them aligned with other federally funded food assistance programs and with the Dietary Guidelines for Americans. The 2011 IOM report, *Child and Adult Care Food Program Aligning Dietary Guidance for All*, reviewed the program in detail and provided recommendations for improvement. In February 2012, at the request of the USDA, the IOM conducted an additional workshop to examine research methods and approaches that could be used to design and conduct a nationally representative study assessing children's dietary intake and participation rates in child care facilities, including CACFP-sponsored child care centers and homes. *Research Methods to Assess Dietary Intake and Program Participation in Child Day Care: Application to the Child and Adult Care Food Program Workshop Summary* is the report that summarizes the workshop"-- Publisher's description.

2. Record Nr.	UNISA996216395003316
Titolo	Transactions of the Moravian Historical Society
Pubbl/distr/stampa	Nazareth, Penn., : Moravian Historical Society, 1859-2000
ISSN	2328-3807
Disciplina	284.6
Soggetti	Moravians - History Moravians History Periodicals.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Periodico
Note generali	Includes reports of the Society's annual meetings, during which some papers also included were originally presented.
