| Nota di contenuto       | Conservative ideology and social change -- American conservatism<br>before Ronald Reagan -- Reagan, George H.W. Bush, and social<br>conservatism -- Social conservatism and the Republican Party from<br>1993 to the present -- The progressive conservatives and the<br>boundaries of politics -- Social conservatives and the Reform Party of<br>Canada -- Social conservatives and the unified Canadian right --<br>Conclusion.  |
| Sommario/riassunto      | "The strength of the Tea Party and Religious Right in the United States,<br>alongside the Harper Conservatives' stance on same-sex marriage and<br>religious freedom in Canada, has many asking whether social<br>conservatism has come to define the right wing of North American<br>politics. In this timely and penetrating book, James Farney provides the<br>first full-length comparison of social conservatism in Canada and the<br>United States from the sexual revolution to the present day. Based on<br>archival research and extensive interviews, it traces the historic<br>relationship between social conservatives and other right-wing groups.<br>Farney illuminates why the American Republican Party was quicker to |

accept social conservatives as legitimate and valuable allies than the Conservative Party of Canada. This book will be indispensable for understanding why a movement so powerful among American conservatives has been distinctively less important in Canada and how the character of Canadian conservatism means it will likely remain so."
