

1. Record Nr.	UNINA9910785709503321
Autore	Bradley Richard Alan
Titolo	Common spiders of North America [[electronic resource] /] / Richard A. Bradley ; illustrations by Steve Buchanon ; sponsored by the American Arachnological Society
Pubbl/distr/stampa	Berkeley, : University of California Press, 2013
ISBN	1-283-86837-7 0-520-95450-5
Descrizione fisica	1 online resource (453 p.)
Altri autori (Persone)	BuchananSteve
Disciplina	595.4/8097
Soggetti	Spiders - North America Arachnida - North America
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Front matter -- Contents -- Preface And Acknowledgments -- Finding, Studying, And Identifying Spiders -- Plates And Groups -- Spider Accounts -- Glossary -- References -- Index
Sommario/riassunto	Spiders are among the most diverse groups of terrestrial invertebrates, yet they are among the least studied and understood. This first comprehensive guide to all 68 spider families in North America beautifully illustrates 469 of the most commonly encountered species. Group keys enable identification by web type and other observable details, and species descriptions include identification tips, typical habitat, geographic distribution, and behavioral notes. A concise illustrated introduction to spider biology and anatomy explains spider relationships. This book is a critical resource for curious naturalists who want to understand this ubiquitous and ecologically critical component of our biosphere.
