Sommario/riassunto	The 1994 elections represented a watershed year for southern Republicans. For the first time since Reconstruction, they gained control of a majority of national seats and governorships. Yet, despite these impressive gains, southern Republicans control only three of twenty-two state legislative chambers and 37 percent of state

legislative seats. Joseph A. Aistrup addresses why this divergence between the national and subnational levels persists even after GOP national landslides in 1972, 1980, 1984, 1988, and 1994. Explanations for this divergence lie in the interaction between the Republicans'

Nickerson, Hideo Owan -- Financial participation plans and firm financial performance : evidence from a Dutch longitudinal panel / Erik Poutsma, Geert Braam -- Insider ownership and firm performance : evidence from Bulgaria / Derek C. Jones, Mark Klinedinst -- The evolving nature of high performance workplace practices in the United

States / Lisa M. Lynch -- Progression of HR practices in Danish firms during two decades / Tor Eriksson -- High performance work practices, industrial relations and firm propensity for innovation / Paola Gritti, Riccardo Leoni -- A dimming of the "warm glow"? : are non-profit workers in the UK still more satisfied with their jobs than other workers? / Chiara Paola Donegani, Stephen McKay, Domenico Moro -- Seniority wages and employee participation / Thomas Zwick.

Sommario/riassunto

With the financial crisis and Great Recession, some economists have begun to question the orthodox approach to production and capital/labor relations over the last two to three decades. This orthodoxy has been thrown into question due to concerns of poor corporate decision-making, corporate capture of regulators, perceived rewards for failure, and uneven productivity growth. But a new spirit of introspection and doubt about orthodox approaches has created some impetus leading to greater interest in themes, such as worker ownership, sharing rewards, co-operatives, and employee involvement practices which feature heavily in the Advances series. This "new spirit" is apparent for all to see in the 12 contributions to this volume of Advances which cover co-operatives; effects of worker participation on firm performance; the diffusion of high involvement management practices; and outcomes for workers (i.e., job satisfaction and wages).
