Sommario/riassunto	This book investigates and considers the urgent political, social, and

economic challenges that confront society and tourism. It attempts to look at what is threatening society, and makes suggestions on what the impact will be and how tourism will be changed to integrate with the new socio-economics of a newly emerging society with its novel peculiar challenges and opportunities in a post-energy era. The book draws on the views of leading thinkers in tourism and considers a broad range of issues from multidisciplinary perspectives facing the tourism industry for the first time
