1.	Record Nr.	UNINA9910785907203321
	Autore	Baggett Lawrence W. <1939->
	Titolo	In the dark on the sunny side : a memoir of an out-of-sight mathematician / / Larry Baggett [[electronic resource]]
	Pubbl/distr/stampa	Washington : , : Mathematical Association of America, , 2012
	ISBN	1-61444-513-3
	Descrizione fisica	1 online resource (ix, 206 pages) : digital, PDF file(s)
	Collana	Spectrum series
	Disciplina	510.92
	Soggetti	Mathematicians - United States Blind - United States
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	Title from publisher's bibliographic system (viewed on 02 Oct 2015).
	Nota di contenuto	Uncle Al's truss -- A quantum moment -- Louis and the problem of sixty-three -- A cane mutiny -- Pinocchio becomes a real boy -- Aunt Mildred and the circle of fifths -- Scarlet ribbons -- Dauntless courage -- The age of enlightenment -- Baggett v. Bullitt, and all that jazz -- Publish or perish, my best work -- The renaissance -- "So how'd that all work out for you?"
	Sommario/riassunto	Misfortune struck one June day in 1944, when a five-year-old boy was forever blinded following an accident he suffered with a paring knife. Few people become internationally recognized research mathematicians and famously successful university professors of that erudite subject, and not surprisingly a minuscule number of those few are visually impaired. In the Dark on the Sunny Side tells the story of one such individual. Larry Baggett was main-streamed in school long before main-streaming was at all common. On almost every occasion he was the first blind person involved in whatever was going on - the first blind student enrolled in the Orlando Public School System, the first blind student admitted to Davidson College, and the first blind doctoral student in mathematics at the University of Washington. Besides describing the various successes and failures Baggett experienced living in the dark on the sunny side, he displays in this volume his love of math and music by interspersing short musings on both topics, such as discussing how to figure out how many dominoes are in a set, the intricacies of jazz chord progressions, and the mysterious Comma of
