Sommario/riassunto	One of the implications of Orientalism is that the Arab world, as a homogenous entity, is often analysed as an anomaly within the international system. This book argues that, despite their differences, societies across the globe ultimately construct their own history according to very similar dynamics and tensions. The methodological approach of this book, using different countries within the Arab world

as models, offers the reader an analysis of relations between the elites and their opposition in a variety of settings. A definition of the political structure of each country is draw
