Sommario/riassunto

Social Activism in Southeast Asia examines the ways in which social
movements operate in a region characterized by a history of
authoritarian regimes and relatively weak civil society. It situates
cutting-edge accounts of activism around civil and political rights,
globalization, peace, the environment, migrant and factory labour, the
rights of middle- and working-class women, and sexual identity in an
overarching framework of analysis that forefronts the importance of
human rights and the state as a focus for social activism. Drawing on
contemporary evidence from Cambodia, Indones
