Sommario/riassunto	Planning, undertaking and completing a research project - from dissertations to presentations - can be a daunting undertaking for any student, involving a number of easily taken mis-steps for those without adequate guidance. The objective of any research project is to gather data, analyse it based on your research question and present your findings and conclusions. For students, having the right approach to these steps can mean the difference between an easily handled process resulting in a well argued and presented project, or panicked flailing, misdirection and confusion. For
