Sommario/riassunto	Changes in the philosophy of planning and the political influences behind it have led to an increasingly ambivalent approach to retail and commercial matters and a lack of clear goals and objectives as to what both central government and the local authorities should be concerned with. At the same time, changes within the distribution industry have brought new pressures to bear upon the environment which the conventional planning process seems ill-equipped to accommodate. This book, by an established leading authority, takes stock of the new problems to be confronted and provides the rudimen
