**Sommario/riassunto**

During the past decade, the role of Germany's economic elites under Hitler has once again moved into the limelight of historical research and public debate. This volume brings together a group of internationally renowned scholars who have been at the forefront of recent research. Their articles provide an up-to-date synthesis, which is as comprehensive as it is insightful, of current knowledge in this field. The result is a volume that offers students and interested readers a brief but focused introduction to the role of German businesses and industries in the crimes of Hitler's Third Reich. Not only does this book treat the subject in an accessible manner; it also emerges as particularly relevant in light of current controversies over the nature of business-state relations, corporate social responsibility, and globalization.

Preface -- 1. Introduction -- pt. I. Global and regional statistics -- 2. Definitions, sources and methodology -- 3. Global and regional estimates -- pt. II. The extent of legal protection -- 4. National labour legislation and domestic workers -- 5. Working time -- 6. Minimum

wages and in-kind payments -- 7. Maternity protection -- 8. Summary and conclusions -- References -- Appendix I. Methodology for global and regional estimates -- Appendix II. National source statistics -- Appendix III. Coverage of domestic workers under national legislation.

#### Sommario/riassunto

The adoption of new international labour standards on domestic work (Convention No. 189 and its accompanying Recommendation No. 201) by the ILO at its 100th International Labour Conference in June 2011 represents a key milestone on the domestic workers. This publication sheds light on the magnitude of domestic work, a sector often "invisible" behind the doors of private households and unprotected by national legislation.
