Engineering a Venture Capital

Sommario/riassunto

Markets for capital, products, and managerial talent are expanding rapidly across national borders, yet domestic laws and practices have never had greater impact on corporate structures and cross-border deals. Investors pursuing high returns and diversification, entrepreneurs seeking capital, and managers endeavoring to restructure troubled enterprises now routinely face transaction counter-parties who operate within different legal and political systems, and who rank social priorities quite differently. This dynamic tension between global markets and domestic institutions
