Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"The Textile Institute."
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. Fundamentals : types of fibre, properties, identification and testing -- pt. 2. Improving natural fibre production through breeding and cultivation.
Sommario/riassunto	Growing awareness of environmental issues has led to increasing demand for goods produced from natural products, including natural fibres. The two-volume Handbook of natural fibres is an indispensable tool in understanding the diverse properties and applications of these important materials. Volume 1: Types, properties and factors affecting breeding and cultivation is an essential guide to a wide range of natural fibres, and highlights key techniques for their improvement. Part one reviews key types and fundamental properties of natural textile fibres. The production, identification and
