| Sommario/riassunto | This book is the definitive record of election results in the gubernatorial races from 1912 to 1931 for every candidate who received at least 1 percent of the total vote. It offers the reader both state and county level voting details of the highest directly elected office in the nation. The returns are presented in two parts. The first section provides an annual summary of gubernatorial votes by year, organized alphabetically by state. The second section provides returns by county for each state's election. Data are based on official election returns. |
