

1. Record Nr.	UNINA9910786358903321
Autore	Cuellar Mariano-Florentino
Titolo	Governing security [[electronic resource]] : the hidden origins of American security agencies // Mariano-Florentino Cuellar
Pubbl/distr/stampa	Stanford, Calif., : Stanford Law Books, 2013
ISBN	0-8047-8434-5
Descrizione fisica	1 online resource (337 p.)
Disciplina	355.033073 355/.033073
Soggetti	National security - United States Internal security - United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Front matter -- Table of Contents -- List of Tables and Figures -- Preface and Acknowledgments -- List of Abbreviations and Acronyms -- Chapter 1. The Twin Problems of Governing Security -- Chapter 2. Rethinking Law, Security, and Organizational Structure -- Chapter 3. Arming Democracy -- Chapter 4. Just How Secure Are You at This Moment? -- Chapter 5. Democracies Need Not Always Be Weak -- Chapter 6. Crosscurrents or Greater Velocity -- Chapter 7. Maybe It's Time to Think Big -- Chapter 8. The Political Logic and Early Legacy of DHS -- Chapter 9. No Matter What Fate May Have in Store -- Chapter 10. An Organizational Gloss on Separation of Powers -- Conclusion. One Supreme Objective for the Future -- Notes -- Bibliography -- Index
Sommario/riassunto	Statutes and regulations are frequently designed to affect the public in specific ways. But exactly how these laws ultimately impact the public often depends on how politicians go about securing control of the complex public agencies that implement policies, and how these organizations in turn are used to define the often-contested concept of "national security." Governing Security explores this dynamic by investigating the surprising history of two major federal agencies that touch the lives of Americans every day: the Roosevelt-era Federal Security Agency—which eventually became today's Department of Health and Human Services—and the more recently created Department

of Homeland Security. By describing the legal, political, and institutional history of both organizations, Mariano-Florentino Cuéllar offers a compelling account of crucial developments affecting the basic architecture of our nation. He shows how Americans end up choosing security goals not through an elaborate technical process, but in lively and overlapping settings involving conflict over statutory programs, agency autonomy, presidential power, and priorities for domestic and international risk regulation. Ultimately, as Cuéllar shows, ongoing fights about the scope of national security reshape the very structure of government and the intricate process through which statutes and regulations are implemented, particularly during—or in anticipation of—a national crisis.
