Nota di contenuto	Men and substance abuse -- Exploring addiction and recovery -- Preadiction experiences -- Addiction experiences -- Recovery experiences -- Lessons learned.
Sommario/riassunto	Judith Grant explores the experiences of men who grapple with drug and alcohol abuse, illuminating the interplay between individual identity and social environment that shapes the processes of addiction and recovery. Grant draws on the voices of the men themselves as she traces and analyzes their paths to both addiction and desistance. Documenting the full sweep of their journeys, she also highlights the critical differences and similarities in the experiences of men and women.
