Personal/citizen insecurity in Africa -- Chapter 10. Social insecurity in Africa: challenges and prospects. Part III. Epilogue: review, conclusions, and looking ahead. Chapter 12. Review of the past and present, conclusions and looking ahead. |
| Sommario/riassunto      | Africa's dynamic security environment is characterized by great diversity of conventional challenges such as insurgencies, resource and identity conflicts, and post-conflict stabilization to growing threats from piracy, narcotics trafficking, violent extremism, and organized crime taking root in urban slums, among others. This precarious environment jeopardizes security at the societal, community and individual levels. In a globalized and interconnected world, millions of people worldwide are affected by some form of human insecurity.  |

Infectious and parasitic diseases annually kill millions.
