This book aims to examine the effects of globalization and economic and political transformations in those parts of the world which are now

Sommario/riassunto

regularly referred to as 'emerging regions'. These are Latin America and the Caribbean, East Central Europe and the former Soviet Union and East Asia. This book breaks new ground in three areas. First of all it develops a critique of the use of the term ""emerging regions"" for geographers and social scientists and relates this to world-systems theory. Secondly, it explores the development trajectories and challenges of countries in this so-called emerging
