Demography and the labour force -- Conclusion.
Sommario/riassunto	This book provides a cogent summary of the economic history of the Irish Free State/Republic of Ireland. It takes the Irish story from the 1920s right through to the present, providing an excellent case study of one of many European states which obtained independence during and after the First World War. The book covers the transition to protectionism and import substitution between the 1930s and the 1950s and the second major transition to trade liberalisation from the 1960s. In a wider European context, the Irish experience since EEC entry in 1973 was the most extreme European example of
